YOUR WINDOW TO COURSES AND CAREERS

COIMBATORE · MONDAY, MARCH 14, 2011

The Nature Club of RVS School of Computer of the RVS College of Arts and Science organised an environmental awareness programme on Uyir Vazha Oru Maram.

M. Yoganathan, environmentalist, spoke on the negative effects of deforestation and global warming.

Importance of tree plantation and negative effects of plastic usage were stressed.

AMUTHA KANNAN

M Yoganathan,
Environmentalist

In 2011, I feel the lands for agriculture should be preserved and not be used for real estate. Also forest conservation is a must. As part of my programme, I am going to continue my efforts to motivate every student to plant at least one tree and take care of them.
