TIME OUT: At Mamallapuram p2

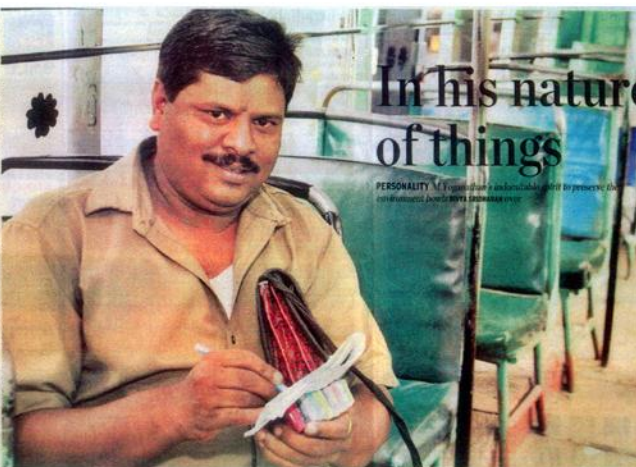

Books: Just a click away p12

Thinking environment has become fashionable. But M. Yoganathan, 49, who has been writing on the environment for over 20 years, is not a devotee of the green movement. He is a realist, and he has a message to deliver. "I am not a green person," he says. "I am a person who is concerned about the environment." He is a person who is concerned about the environment. He is a person who is concerned about the environment. He is a person who is concerned about the environment.
